

Memorandum

To	Hearing Commissioner
From	Mt Messenger Bypass Project Team
Date	3 August 2018
Subject	Updated CEMP AND CLMP

This document explains the minor changes made to the CEMP and CLMP, and reflected in the versions dated 3 August 2018 (handed up to the Commissioner at today's hearing).

Update to the CEMP

Updated Section	Reason for Change	Change
5.6	Commissioner's request for further clarification to be added to CEMP during Wendy Turvey delivery of evidence on 2 August 2018	Following text has been added: <i>It is assumed that the property located at 3072 Mokau Rd will be vacant during construction, However, if it is occupied the methods outlined above will be implemented to ensure that any adverse dust effects are managed appropriately.</i>
5.7	Commissioner's request for further clarification to be added to CEMP during Damian Ellerton delivery of evidence on 2 August 2018	Following text has been added: <i>It is assumed that the property located at 3072 Mokau Rd will be vacant during construction, However, if it is occupied the methods outlined above will be implemented to ensure that any adverse noise effects are managed appropriately.</i>

Update to the CLMP

Updated Section	Reason for Change	Change
5	NPDC Section 42 report (30 July 2018) number 14. Request for staged report.	Following text has been added: <i>The DSI (dated July 2018) found that the soils in areas sampled do not contain contaminants at a level that would present a risk to human health or the environment during or at the completion of works. However should unexpected contamination be encountered, reporting will be required as outlined in Section 4.7.3 of the CLMP. It is anticipated that this would be reported in stages.</i>
