

Schedule of Fees and Charges

The Revenue and Financing Policy sets out the basis for determining fees and charges. It emphasises that the fee or charge should reflect the market rate, but take into account the Council's other policies and Community Outcomes. Further guidances is provided by the Council's Fees and Charges Policy.

This section covers the Council's review of fees and charges and shows charges from 1 July 2020 to 30 June 2021, with the exception of animal control where the fees are shown from 1 July 2020 to 30 June 2022. The Fees and Charges Policy sets out the procedure for an annual review. The Council will consult on proposed fees and charges as one annual consultation process unless it is impractical to do so.

In some cases charges are set by statute and cannot be changed and may be listed in this document for completeness. Other fees and charges are delegated to officers and have been included for consultation.

The Council charges for services where a distinct benefit to groups or individuals can be identified, e.g. the benefit to an individual for a resource consent for a subdivision, or the benefit to a sports club for exclusive use of a sports ground. In some cases, the Council charges only a portion of the costs, because there is also a community benefit component. This ensures that charges are fair and reasonable, and that ratepayers do not subsidise those services that have a distinct private benefit.

Where practical, the Council endeavours to recover some of the cost of responding to negative actions caused by identified groups or individuals such as excessively loud music or dangerous dogs.

The charges for Council-owned subsidised housing are not included in the schedule of fees and charges. The charges for these properties are set according to location and type of housing.

Fees and charges will generally be increased by inflation on an annual basis.

All fees and charges are quoted inclusive of GST.

This section contains a schedule of fees and charges for the following activities:

- Govett-Brewster Art Gallery/Len Lye Centre.

Charge out rates

There are two resource consent processing group charge out rates:

1. The administration charge out rate applies to front of house carrying out application/documentation acceptance and support services functions including record keeping and other incidental administrative tasks.
2. The technical charge out rate applies to all inputs by environmental planners (including team leaders and managers), technical officers and monitoring officers. The hourly charge out rates include the use of vehicles, phone calls, internet charges, use of equipment, stationery, incidental business support and incidental photocopying.

Other charges

1. External inputs. These are Council technical inputs external to the Resource Consents Team staff and contractors. These include policy advisors, development engineers, roading engineers, secretariat and Councillor hearing related costs.
2. Specialist inputs. These are inputs of skills and expertise external to the Council needed to address application issues such as legal, archaeological, iwi consultation, hazard assessment, traffic engineering, arboreal, landscape assessment, specialised resource management advice and the use of hearings commissioners. Contractors fulfilling the roles normally handled by the Resource Consents Team are not specialist inputs.

Fee types

There are three fee types:

1. Fixed fee. This fee covers all costs for a process, product or aspect of an application. The amount is fixed – no additional costs will be charged by the Council in regard to the application up to the stage the document or consent is issued.
2. Set base fee. This is an all inclusive fee covering the administration and technical processing work by the Resource Consents Team which covers receiving, processing and issuing the document or consent. Additional charges will apply for external and specialist inputs if required.
3. Base fee. The base fee is non-refundable except in accordance with the refund criteria. This fee is set at a level intended to cover a straight-forward application with no external inputs or other case specific costs.

This fee will cover the receipt and issue of the application and initial monitoring together with up to a specified number of hours of resource consents processing group technical inputs that typically remain after these costs are deducted.

Applications requiring external or specialist inputs will reduce the number of processing hours from that stated.

In some instances the base fee will be exceeded.

Matters that could cause the base fee to be exceeded include external or specialist inputs, pre hearing or other meetings, significant mail outs or photocopying, amendments or additional information or application complexity. Invoices will be sent out where fees paid are exceeded.

Payment of fees

- Application fees are to be paid at the time of lodgement unless alternative payment arrangements have been formally approved.
- A reduced application fee may be considered by the Planning Lead where unusual circumstances or the characteristics of the application would make it inappropriate to charge the normal fee.
- Additional fees will be required to be paid before the continuation of processing where an application belongs within a higher fee category.
- Where an application falls within more than one fee category, the higher fee category will apply.
- Initial monitoring fees (if applicable) are due for payment at the time of consent issue. These normally will be deducted from the application fee.

Regulatory Services

Subdivision Consents and Associated Processes

- Processing costs exceeding the fee paid will be invoiced. Invoicing may be periodic or at the completion of processing.
- Non-payment of fees or invoiced additional processing costs will result in processing or consent issue being suspended unless alternative payment arrangements have been formally agreed.

Refunds

Where applications are withdrawn a refund will be considered. Refunds will exclude all charges incurred up to the date of withdrawal of application.

1. Fixed fee. This fee covers projects where the costs are easily identified before application, or where an average rate is appropriate. The amount is fixed. No additional costs will be charged by the Council in regard to the fee quoted.
2. Base fee. The base fee is based on the anticipated costs for the project and is non-refundable..

In some cases actual costs of a project may exceed the estimated minimum fee, due to external or specialist inputs, amendments, additional information submitted, application complexity, inspection complexity or additional inspections undertaken.

At the end of a project, if the actual costs have significantly exceeded the minimum fee, an invoice for the additional costs will be sent and are required to be paid prior to issue of a code compliance certificate.

Cancellations

When an application is withdrawn before the consent is issued and fees are outstanding, an invoice for the work completed to date will be sent to the fee payer.

If an application is withdrawn after the consent is issued, a refund will be sent to the payer for monies not used by the activities to date.

Payment of fees

The total fee and levies applicable will be asked for when you submit your application. We would appreciate that this is paid when applications are lodged, however if the applicant is not responsible for the cost an invoice can be sent to the owner when the consent is ready to be issued and must be paid in full when the consent is picked up.

Extra inspections or re-inspection will be involved at the end of the project and are required to be paid prior to the issue of a code compliance certificate.

- A reduced application fee may be set by the Manager Building (Building Lead) where unusual circumstances or the characteristics of the application would make it inappropriate to charge the normal fixed or base fee.
- Where an application belongs within a higher fee category, additional fees will be required to be paid before the continuation of processing. This will apply when work is undervalued. The estimated value of the finished work will be used.
- Where an application falls within more than one fee category, the higher fee category will apply.
- Non-payment of fees or the invoiced additional processing costs will result in processing or inspection being suspended unless alternative payment arrangements have been formally agreed.

A typical calculation of the fee you are to pay can be done using this formula:

Value of work is \$20,000 or under - base fee for category + Accreditation Levy.

Value of work is over \$20,000 - base fee category + DBH (MBIE) Levy + BRANZ Levy + Accreditation Levy.
